Bass Academy – Interactive Bass Training Platform

A comprehensive bass practice platform featuring selectable exercises, artist techniques, real-time tablature,

fretboard visualization and Web Audio synthesis. Offline-first PWA built with React, Vite and TailwindCSS.

Key Highlights:

- Custom Exercise Builder with visual fretboard editor

- Artist techniques: Patitucci, Wooten, Flea, Jaco

- Interactive tablature and fretboard

- Transposition to all 12 keys

- Web Audio engine, no backend

- PWA with offline support

- Import/Export exercises as JSON
